Earth to Heaven<sup>®</sup>

Since 2005, Southgate International have been designing and supplying affordable, environmentally friendly products throughout the UK and Europe under the Earth to Heaven range to say goodbye and to remember loved ones.

Earth to Heaven coffins represents an opportunity to offer a choice without compromising on standards. All of our products are made by skilled craftsmen, using only the highest quality willow harvested from renewable and sustainable sources.

Our Team has applied the same level of thoughtfulness to their environmental philosophy and maintain that.

“In life we make choices on a daily basis and we find that people want to have that same choice in death’.

## Our Quality Range...

---

### Larkspur - means 'Beautiful Spirit'

A handcrafted traditional shape coffin made from natural willow with load bearing rope handles.

### Iris - means 'Faith, Hope & Wisdom'

An elegant shaped oval coffin made from natural willow.

All of our willow coffins are suitable for both burial and cremation. Finished to a high standard, with a padded lining, quilt and pillow.

## Juniper - means 'Eternity'

Unique to Earth to Heaven are the Juniper and Sweet Iris as they are made from dried sweetcorn leaves that enhance the beauty of the willow weave.

## Sweet Iris - means 'Wisdom and Purity'

An oval shape Coffin made with a blend of natural willow and sweetcorn leaves

## Seagrass:

Our seagrass is a traditional shaped coffin strengthened with bamboo cane and decorative natural willow around the edge of the lid. Our raw seagrass is renewable and comes from an environment where sustainability practices are employed.

## Natural grasses:

An oval shaped coffin tapered towards the end.

## Bamboo:

Our coffin is a tear-dropped shape, fitted with a calico lining. From the grass family, bamboo can grow two feet a day. When it's harvested, it does not need to be replanted as it will grow a shoot from its extensive root system. Bamboo is an endlessly renewable resource.

## Lining:

All of our coffins are supplied with a cotton padded lining, padded quilt and matching pillow. Wooden name plates are supplied as standard and can be engraved for a small charge.

## Myrtle Ash Casket & Sweet Myrtle Ash Casket - means 'Love'

Each casket is lined with a calico lining and comes with a wooden name plate.

"Sometimes the smallest things take up the most room in your heart"

- AA Milne, English Author

## Beautifully handcrafted baby coffins made with care

Earth to Heaven sympathise with families who grieve a tiny loved one and instead of or understand your needs to personalise every lasting memory.
